SAY CIGARETTES CAUSED YOUTH TO ATTEMPT SUICIDE

Franklin Branson Found Brother
Lying on the Floor With Cut
in His Throat.

The excessive use of cigarettes, which
affected his nervous system, is given as
the reason for Launcey Branson's attempt
to end his life by cutting his throat with a
razor, at his home, No. 1418 Glasgow
avenue, last evening.

A wound that ten stitches were required
to close was inflicted by the keen blade,
and Branson almost bled to death before
the arrival of Doctor A. C. Melles, whom
members of the family called from his of-
fice, No. 283 Cass avenue.

Branson was found by his brother,
Franklin, lying unconscious on the floor of
his room. In the young man's hand was a
note of farewell to his parents, brothers
and sisters. In the message Branson said
that he was at fault and asked forgiveness.
To the police, Franklin Branson said that
his brother was a slave of cigarettes and
frequently smoked thirty a day. The habit
was noticed in his irritable temper and
moody disposition. Of late, Franklin
was unable to sleep, and it is believed his mind
was temporarily affected by the nicotine
poison.

Branson is at the City Hospital, and his
weakness, due to loss of blood, is expected
to render his recovery doubtful. He is a
miller and 23 years old.

The grading of Manchester avenue,
from building line to building line, from
Sarah street to King's highway, is about
completed. A letter from the Street Com-
missioner stating that on account of the
doubtful state of the law with reference
to the manner of assessment for street
improvements it was impossible to say
just when the street would be paved was
read. In grading the street all the side-
walks and crossings were removed, and
the street will be well-nigh impassable
during the muddy season.

In view of the fact it was resolved to
request the Street Commissioner to fur-
nish temporary macadam crossings and a
cinder path from Sarah street to King's
highway on both sides of the street.
